

QA Fundamentals and Manual Testing Retake Exam

Part I – Revue Crafters Web Application

You are provided with a web application, **Revue Crafters**, along with a specification of the requirements. The primary objective of the exam is to ensure the App functions as expected according to the provided use cases. This involves **creating test cases for each of the [USE CASES](#)**. It also includes the **detection and detailed documentation of any identified bugs**. You have to document all your work in the provided **Test Management and Bug Tracker Template**.

Software Requirements

1. Introduction

1.1. Purpose

The objective of this document is to provide a description of the **Revue Crafters** application (also referred to as **Revue Crafters** or **The App**). It will present an overview of the key functionalities.

1.2. Scope

This document includes high-level descriptions of the **basic functionalities of Revue Crafters**, such as user registration, login, profile editing, revue creation and management. It does not cover any special user (Administrator) functionalities.

2. Overall Description

2.1. System environment

The App hosts two primary actors: **unregistered/non-logged** users and **registered/logged** users. Both can access their respective parts of the application via the internet on the following url:

<https://d24hkho2ozf732.cloudfront.net/>

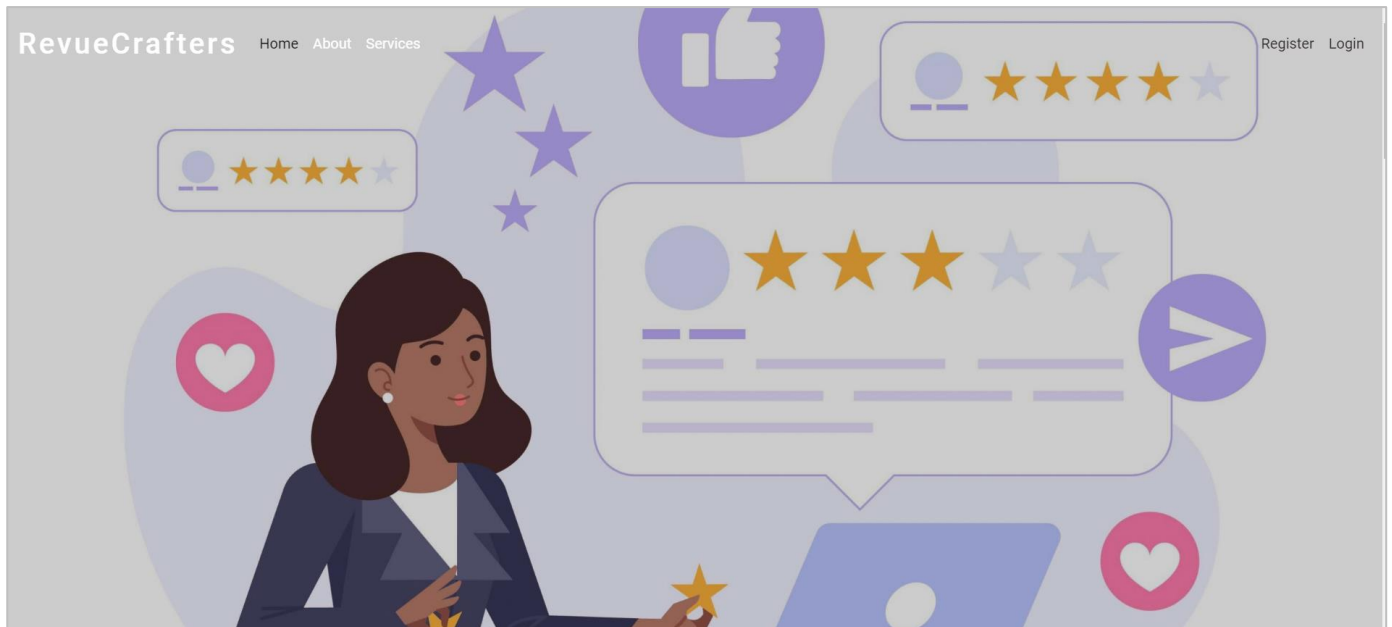

2.2. Key Features

Unregistered/non-logged users have access only to the Home page of The App, with the option to either **REGISTER** or **LOGIN**. On the other hand, **registered/logged** users have access to the **main functionalities**, including **Profile editing**, **Revue creation**, and **Revue management**.

2.2.1. Home Page for unregistered / non-logged users

The **Home Page** is the main gateway into The App. It contains a **navigation bar** (also referred to as **Navbar**) on top, with **Home**, **About** and **Services** buttons on the left and **REGISTER** and **LOGIN** buttons on the right. The Home page of the web application is designed with a scrollable layout. **Each of the buttons on the Navbar**, upon clicking **scrolls** the page to its corresponding section.

Upon loading, users will be presented with an image and below this initial image, the page is divided into sections, each serving a specific purpose.

Below, the initial image the first section is titled: Explore the World of Reviews

This section includes a picture and a short description of what one might expect from the App.

Explore the World of Reviews

Discover a diverse array of product reviews crafted by our community of reviewers. From gadgets to fashion, home appliances to cosmetics, we've got it all covered. Our intuitive categorization and search system make it easy to find reviews on products that matter to you.

Why Choose RevueCrafter?

Authentic Insights: Our reviews are written by real people, for real people. No paid promotions, no biased endorsements – just genuine experiences.

Community Engagement: Connect with like-minded individuals, engage in discussions, and learn from the experiences of others.

Easy-to-Use: Our user-friendly interface ensures a seamless experience, from writing your review to browsing through others.

The second section: There is no limitations!!!

This section features three images, each accompanied by corresponding text, encouraging users to explore their creative potential within the realm of reviews: **Inspiration Unleashed**, **Endless Exploration**, and **Community**. This section can be reached via scrolling or by clicking on **SERVICES** button on the Navbar.

There is no limitations!!!

Inspiration Unleashed

We believe that by embracing a mindset free from limitations, we can encourage others to write the most inspiring revues.

Endless Exploration

Dive into a sea of possibilities, from thought-provoking to groundbreaking revues.

Community of Visionaries

Connect with like-minded individuals who share the belief that limits are meant to be surpassed, and together, let's create a ripple effect of positive revues.

Section three: Join the RevueCrafter Community Today - Just Sign Up for Free

2.2.4. Home Page for logged users

Once a user is **logged in**, they are directed to a different version of the **Home page**. The page includes a **Navbar on top**, with links to **MY REVUES** and **CREATE REVUE** on the left, and **PROFILE** and **LOGOUT buttons** on the right. The page again is scrollable, the initial image is the same and below the image "**Dear, {username} It's a pleasure to have you here again, back in the heart of the RevueCrafter community....** " message is showing.

2.2.5. Profile Page

This page is accessible for logged users **from the Navbar, top-right PROFILE button**. It includes a **default empty profile picture**, an **EDIT PROFILE button**, an **empty About section by default**, and a **counter of the user's revues**, which is initially set to 0. If no revues have been created yet, the **Recent revues section** shows a **No revues** message. There is also a **Show all link** which leads to **My Revues page**.

2.2.6. Edit Profile Info Page

Accessible from **EDIT PROFILE button on Profile page**, this page allows **users to edit their profile information**, including **Profile picture** (picture is not uploaded, but must be a **valid URL of a picture**, for example <http://.....jpg>), **First name** (max 60 characters length), **Last name** (max. 60 characters length), **City** (max. 120 characters length), and a **Describe yourself** section (max. 256 characters length).

a. VIEW

Available after clicking on **VIEW** button. The user should be able to VIEW the revue and also EDIT and DELETE it, through the small blue buttons on the bottom right.

b. EDIT

Available after clicking on **EDIT** button.

A screenshot of a form titled "Edit the revue". It contains three input fields: a "Title" field with the text "test", an "Add Picture" field with a camera icon, and a "Describe your idea" text area with the text "test". To the left of the text area is a pencil icon. At the bottom of the form is a blue button labeled "EDIT".

c. DELETE

After clicking on **DELETE** button, the Revue is deleted and it disappears from My Reviews page.

Functional Requirements

1. Use Case 1 (Home Page)

Users should be able to access The Revue Crafters App from its designated URL via the Internet, which should load the Home page, appropriate to the user's logged-in status (unregistered/non-logged or registered/logged).

2. Use Case 2 (User Registration)

Unregistered users should be able to successfully go through the Sign Up process. This involves the utilization of fields such as Username, Email, Password and Repeat Password, all subject to their respective constraints and character type acceptance.

3. Use Case 3 (User Login)

Registered users should be able to successfully go through the Log In process. They should be able to log in using Email and Password.

4. Use Case 4 (Profile Management)

Upon successful Log In, logged users should be able to navigate to their Profile page, edit their profile details, and view their Revues count. This involves the changing of profile picture inserted via URL, and editing of user data fields including First Name, Last Name, City and About me sections.

5. Use Case 5 (Revue Creation)

Logged users should be able to navigate to the Create Revue page, where they can create a new Revue with a Title, Picture (URL), and a Description. After the Revue creation process, users should be redirected to My Revues page, where the newly created Spoiler should be present.

6. Use Case 6 (Revue Management)

On My Revues page, logged users should see all their revues listed. Each revue should have options for View, Edit, and Delete. If no spoilers have been created yet, a "No revues Yet!" message should be displayed. Users also should have the option to search for revues, based on revue's title.

Revue Web App Tasks

1. Test Cases

You need to write **test cases for each of the 6 Use cases**.

Each Use case should have at least **2 Test Cases**.

You should write at least **15 test cases**.

2. Bug Reports

You should find and describe at least **5 bugs**.

2 of the bugs should have **high priority OR blocking/critical severity**.
